

Kick off football season with a PSA from Muscular Dystrophy Association (MDA) featuring professional NFL running back, **Nyheim Hines**.

Nyheim was 14 years old when his mother was diagnosed with muscular dystrophy and with MDA's support, she receives the guidance, services, treatment and care she needs.

MDA is also there to help Nyheim's biggest fan, Ethan who has been living with Duchenne muscular dystrophy since he was 2 years old. Thanks to MDA, Ethan has more hope than ever with the first-ever FDA approved gene therapy treatment for the disease released just a few months ago!

With over 150 MDA Care Centers at the nation's top medical institutions, MDA is in communities across the country empowering children and adults with muscular dystrophy, ALS, and related neuromuscular diseases to live longer, more independent lives through accelerating treatment, advancing care, and advocating for access.

Join **Nyheim Hines** and get in the game to help MDA. Please download and air this PSA today.
