

A smile is a powerful gesture – it can light up a whole room. For children with cleft lips and palates, a smile means more – it means being able to eat, breathe, hear and speak. That's why Smile Train is **Celebrating Smiles** and asking people around the country to join them.

For the past 25 years, Smile Train has been changing the world, one smile at a time. In their latest PSA, see how they are helping families and the medical community with sustainable and local models of support giving children the access to care they deserve.

Share **Celebrating Smiles** with your viewers and help Smile Train continue their important work in more than 70 countries. When you do, you will be leaving a legacy of resilience, joy and beaming smiles for generations of children.
