

For 50 years Canine Companions has been helping people with disabilities turn overwhelming moments like riding a bike, going to the store, or visiting the doctor into empowering milestones with the support of a service dog by their side.

In this uplifting TV PSA series **Together We Become**, viewers and listeners meet Kearria & Darling, Emma & Marcia, and many others whose lives have been transformed by their service dogs. Together, they open doors, paint, snuggle, travel, tidy up, climb, practice hobbies, and make friends. Accompanied by an inspirational soundtrack, each spot tells a powerful story of joy, confidence, and newfound independence.

We encourage you to air the **Together We Become** PSA series to raise awareness of the life-changing impact of service dogs and support the mission of Canine Companions.
