

As the world looks toward the 2026 Winter Olympic and Paralympic Games in Italy, we are reminded that every athlete's journey is built moment by moment: from early mornings and late practices to balancing their dream, school, work, and family.

The U.S. Center for SafeSport is working to **Protect the Dream** of every athlete by helping to ensure their journeys are safe, supported, and free from emotional, physical, and sexual abuse.

The newest U.S. Center for SafeSport PSA, **Protect the Dream**, underscores that every athlete comes from somewhere. When athletes have safe and respectful environments, character, confidence, and dreams flourish.

Stand with U.S.A. athletes by sharing **Protect the Dream** with your viewers and raising awareness about the U.S. Center for SafeSport's mission to end abuse in sport.
