

1 in 5 people will have a stroke. Watch my story.

American
Heart
Association®

Dra was sixteen years old when he was rushed into emergency surgery. He lived to tell his story thanks to the medical breakthroughs and work done by the American Heart Association.

The American Heart Association supports lifesaving research to educate your community on prevention and early detection of life-threatening heart conditions. Heart disease is the No. 1 killer worldwide, and stroke ranks second globally. Even when those conditions don't result in death, they cause disability and diminish quality of life. The American Heart Association wants to see a world free of cardiovascular diseases and stroke.

Help raise awareness on the risk of heart disease and stroke in your community by airing this PSA today!
